"Docket No. 89-15, Notice 2"

Docket Section

Room 5109

National Highway Traffic Safety Administration

400 Seventh Street, S.W.

Washington, D.C. 20590

Dear Sirs:

1 pg.

I am writing this letter in protest of the proposed rule changing as filed in the Federal Register Volume 57,14 January 22, 1992. My company is enjoying its 10th anniversary this year but the proposed rule change would put us out of business. Keep in mind that this law effects not only the employees of companies like mine but their families as well. Thousands of people will be hurt by this rule change.

Energy Warehouse distributes product in an eight state area in the the midwest to professional installers who strictly adhere to the laws adopted by their individual states. I personally have worked very hard in Oklahoma with the Highway Patrol, Department of Public Safety, State Senate and the Oklahoma House of Representatives. Working together, we were able to draft legislation that satisfied all parties.

The Department of Public Safety has noted no increase in traffic accidents accountable to window tint nor have they seen a decrease in officers safety, according to Lt. Larry Rutherford.

Please consider the economic hardship that you will create on thousands of families. Our country is already in a recession. This proposed rule making will only add to our current economic problems. Please let our individual states decide what is best for their people. Don't force the thoughts of a few people in Washington on the masses. Be fair. That's what this country is all about. Don't take away our jobs. Please reconsider your position.

Sincerely,

Patrick J. Keeley
